

Our Town

By J. B. White

Dozens of notable public and private careers in our history have been dedicated to the principle of conservation of national resources. Greeley and Grady and Watterson and other great editors thundered anathema at many administrations for neglect of the riches with which nature has endowed the country. More than one Cabinet crisis resulted from determined attempts to safeguard the Nation's mineral and timber supplies.

It remained for the National Recovery Act to bring about this fundamental economic reform. In a manner that to one unfamiliar with the high purposes of our President, the accomplishment may have seemed almost incidental. Yet, like child labor and sweat shops and racketeering and other obnoxious evils, protection of public wealth in the President's mind is a major matter and he gave it immediate concern.

As the 300,000 young men in 1,500 forest camps are engaged in scientific preservation of timber on government reserves, so there is now mandatory provision in the code of fair competition of the lumber industry which definitely lines up the owners of all private forests in the United States behind the fixed policy of forest conservation. Secretary of Agriculture Wallace said of this code provision: "It strikes at the heart of the problem of forest depletion by destructive lumbering."

Five millions is being spent in checking soil erosion to provide for reforestation. Destruction of forests by fire, plant disease, and insect pests is being fought by Civilian Conservation Corps. Under the operation of the codes of the coal and oil industries already have the assurance that there will no longer be waste, so recently wanton, of these irreplaceable resources. These seemingly secondary phases of the national recovery program will restore incalculable national wealth and recreate confidence in the efficacy of government.

EMPLOYMENT OFFICE IS OPENED IN CITY

A branch office of the National Reemployment Service has been opened in Cameron with headquarters in the old Cameron State Bank Building, with J. P. Love, County Administrator, supervising the work. Thad Bailey has been named assistant to Mr. Love and will have charge of the details of the reemployment service which is a part of the Reconstruction program and relief work.

C. P. Rogers, field representative of the Texas Rehabilitation and Relief Commission, who was in Cameron last week arranging details of the new labor plan, announced the new service.

J. B. White is chairman of the local committee to supervise the National Re-employment Office. Serving on the committee with Mr. White are Giles L. Avriett, O. C. Nolte of Ben Arnold, Chas. Saller of Thorndale and J. M. Weed of Rockdale. Branch offices for the county will be opened elsewhere if deemed necessary, said Mr. Rogers.

The National Re-employment service is a bureau of the United States Department of Labor and was created to care for the orderly and efficient selection of applicants for work on national and state highways and public works construction with funds made available under the National Recovery Program. All contracts let for construction projects and loans and grants contain such provisions as are necessary to insure:

That no convict labor shall be employed on project.

OPENING GAME IS TAKEN BY YOEMEN

The Yoemen opened the 1933 season and dedicated the new Athletic Field in grand style by defeating the Giddings High School 39 to 7.

The Yoemen scored early in the first quarter and the first team continued the touchdown parade throughout the remainder of the time they were in the game.

Giddings scored in the third quarter after the Yoemen first team had been replaced by the second team.

Yoemen showed fine team work at times and will probably develop into a fine team.

The Yoemen will play in Navasota this week then return home for three of the hardest games of the year, Hearne on the 13th, then Taylor and Caldwell the following weeks.

"Georgia Chain Gang" Feature Legion Show Opening Next Week

One of the interesting attractions seen with the Crawford Francis Shows this year is the "Georgia Chain Gang" an expose of the brutal punishments meted out to convicts whose sentences is for trivial offences such as vagrancy or riding freight trains. The attraction is presented by men who have been "thru the mill" whose knowledge is that of personal experience. Here are shown the varieties of torture that would make the Spanish Inquisition look like a "Roman Holiday." Among the punishments shown is the sweat box. It will recall to mind the fate of Martin Talbert of Munich, N. D. whose death began a Federal investigation which resulted in a penitentiary sentence for the keeper. This and other equipment of a prison camp are shown and explained by a competent lecturer.

Manion was former night jailer at the jail. Bevell, recently under charge of negligent homicide in a state court, runs a market. He spent much of his time around the criminal courts building.

YOEMEN WILL PLAY HEARNE OCTOBER 13

Cameron fans will have the opportunity of seeing the Yoemen in action against Hearne at 8 o'clock Friday night, October 13th. The game is to be played on the new Yoe High Athletic Field, and being a night game is expected to draw the record crowd of the season.

Last year at Hearne the Yoemen were able to hold the fast Hearne aggregation to a 6-6 tie and the dope seems to be about even on the two teams at this time. This is a conference game and the town that wins will be a contender for championship honors in District 20.

A CORRECTION

In the last issue of the Herald an account was published regarding distribution agency for Blue Ribbon Beer. In the account the Blue Ribbon agency was credited to McLane Company. This is an error. McLane Company are distributors for the famous XXX Pearl Beer and not Blue Ribbon. The agency for Blue Ribbon is the Schuhmacher Company.

The Master of Ceremonies, the Deacon, Sub Deacon, the Deacon of Honor, Candle Bearer, the Book Bearer, Etc., will be chosen from the visiting priests on that day. A large crowd is expected to attend this celebration and every one is invited.

MRS. KITTIE B. MAYES BURIED AT MAYSFIELD

Mrs. Kittie B. Mayes died at her home in Maysfield Thursday at 6 a. m., September 28th, 1933, after an illness of a few months. Her condition was not considered serious until about six weeks prior to her death.

Mrs. Mayes was a devout Christian woman, member of the Presbyterian church at Maysfield and was pianist at the time of her death. She taught a class in Sunday School and was always willing and ready to do her part in any church or community work. She taught music in the public school.

Mrs. Mayes was born in Nettleton, Mississippi, January 14, 1879 and moved with her parents, Rev. and Mrs. J. K. P. Newton, to Cameron at the age of eight years, later going with them to Maysfield. Since that time her life has been blessed in the community in which she lived. She was loved by all who knew her and her friends everywhere will deeply feel the loss of her sweet Christian.

Relief Employment In City Held Up Because Council Hesitates

Cameron merchants were being deprived of the benefits of work relief funds because the City Council had failed to agree to sign application for money to be spent here.

The application involves no expense to the tax payers and it was estimated that approximately \$40,000 might be available on work relief projects here.

County Commissioners were co-operating to the fullest extent and were glad to bring these benefits to the county.

Opposition to public relief has been expressed by certain members of the council. Payment is to be made one third cash and two thirds in groceries.

The city has made no preparation to relieve distress this winter in Cameron and continues to withhold support of the United States Government program for relief of unemployed due to disagreement.

Work relief is a part of the National Recovery Act and no other method is provided for benefits from the government.

Unemployed men are registering every day. So far as the city proper is concerned the Council is responsible for any failure that might occur to take full advantage of the funds available and to co-operate with the Re-employment program.

Cameron Yoemen Open Season With Victory

Inaugurating the new deal in football here last Friday night, Yoemen defeated Giddings 39 to 7. The game was played on the new electrically lighted field and was the first night game ever played in Cameron.

Both teams showed good form for the opening game of the season.

St. Monica's Catholic Church will celebrate the fiftieth anniversary of the Parish Wednesday, October 11, 1933.

The celebration will begin in the morning with Pontifical High Mass at nine-thirty, which will be the first time to hold Pontifical Mass here. The Most Rev. Christopher W. Byrne, D. D., Bishop of the Diocese of Galveston, officiating, assisted by Father George Apel of St. Monica's Parish, and other visiting Priests. There will be about twenty-five Priests for the occasion.

A parade of progress will be staged in the down town district at 11 o'clock, and dinner will be served on the grounds at 12 o'clock. At 1:30 there will be a public speaking. The principal speakers will be Bishop Byrne and Congressman O. H. Cross of Waco. The carnival spirit will prevail in the afternoon, with games as entertainment for the old and young. Supper will be served at six o'clock in the evening and a dance will be given in the Knights of Columbus Hall that night.

Fifty years ago the first Mass was said in the home of the late David and Mrs. Meyers by Father Lauth. There were five families present at the first mass. Today there are two hundred and forty families in St. Monica's Parish and services are held in a magnificent new church that would be a credit to any community.

The committees are busy working out many novel features to be given during the day, and a general good time is expected for those in attendance.

Bryan Parents Want Girls At A. & M.; Directors Oppose

BRYAN—Directors of Texas A. & M. College in special session on the campus yesterday voted to fight efforts of Bryan residents to compel the college to admit their daughters this scholastic year.

The board planned to advise with the state attorney general's department, employ counsel and oppose the application for writ of mandamus, filed Sept. 16 with W. C. Davis, district judge, in Brazos county district court.

Judge Davis indicated today that a hearing on the application, set for tomorrow, might be delayed by application for continuance on the ground that the board desired more time to prepare a defense.

J. E. Stanford and others filed the application. Two of his daughters, Evelyn and Alia, were among the 12 Bryan girls who signed the petition but last Wednesday Evelyn married Dr. R. M. Searcy. She had planned to do post graduate work at the college.

RED CROSS IS READY FOR DISASTER CALLS

With characteristic speed the American Red Cross, during the fiscal year ending last June 30, answered humanity's call in seventy-seven disasters, scattered in all parts of the United States. Floods, tornadoes, forest fires and earthquake, left their devastating effects in half of the states of the nation and tens of thousands of stricken families were forced to turn to the Red Cross for succor. During the first six months of 1933 the National Organization experienced one of the busiest periods in its peace-time history. Last spring the combined forces of high water, wind and fire, climaxed by the Southern California quake of March 10, resulted in deaths of 426 persons, injured 9,000 others and wrecked or damaged 17,872 homes. In addition the relief agency extended assistance during the year to nearly a score of calamities in similar possessions and abroad.

Distress from disasters, necessitating action of the Red Cross has been felt on several occasions in the state of Texas during recent years.

Standing in readiness to respond whenever and wherever calamity strikes, the Red Cross deals with disasters in a systematic manner, extending help to sufferers upon a basis of their individual needs. In its long disaster experience the agency has built up a network of disaster preparedness committees in thousands of the communities it serves. These local committees, generally composed of representative

Smith County Gets Beer at Last

When the votes were counted in the recent state repeal and beer elections Smith county was left out. It is in the heart of the East Texas oil fields, with the mushrooming metropolis, Tyler, as county seat. The county went wet on the state beer vote but dry on the local option election by a narrow margin. Machinery was quickly set in motion for another local vote, however, and Smith county has now gone wet. Do they like it? Don't ask us—look at the picture above, taken in Tyler when the first license was granted.

Lady Took Cardui And Got Rid of Pain In Her Side

"Last summer, my health was bad, so I began taking Cardui," writes Mrs. H. E. Slaughter, of Norman, Okla. "My mother had given me Cardui in girlhood, so naturally I turned to it when I felt I needed it. I felt run-down and a general weakness. I had bad, dizzy headaches when ever I would seem to dance before my eyes. My right side pained me so much, but since taking Cardui the pain has left me. I have taken several bottles of Cardui and have improved a great deal."

Cardui is sold at drug stores here.

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may keep you constipated as long as you keep on using it! And the habitual use of irritating salts, or of powerful drugs in the highly concentrated form of pills and tablets may prove injurious.

A week with a properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin will tell you a lot. A few weeks' time, and your bowels can be "as regular as clockwork." Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child. COZY DAYS AHEAD

for HOMES HEATED WITH IMPROVED GAS APPLIANCES

It's time to think of comfort, to plan so that when winter winds begin to blow, your home will be a haven of warmth—a cheerful, cozy place where raw chill is barred from every room—a place where the whole family can enjoy life comfortably, luxuriously.

You can modernize your home heating most easily these days, with so many improved types of gas heating appliances at your command.

There are floor furnaces that require only a small space beneath the floor, yet heat large areas efficiently. There are circulators that provide healthful, circulating warm air for rooms that are hard to heat. There are individual gas steam radiators, manufacturing steam heat on the spot. For the larger home, there are gas-fired central heating plants that circulate warmth all over the house, and gas conversion burners to modernize old heating systems. And there are many styles of improved space heaters ranging from the simplest

models to reproductions of old-world designs.

Some one of these improved types of modern gas equipment—maybe a combination of types—will bring summer time to your home this winter. With your home so equipped we are safe in predicting "Cozy Days Ahead," regardless of the winter.

You'll find a wide variety of modern gas heating appliances at your gas appliance dealer or your gas company. Either will be glad to give you dependable advice on any home heating problem.

Better Sandwiches Demonstration Given By H. D. Agent

"Since we are looking for variety in sandwiches now that school lunches must be prepared you will find this spread an interesting way to use up some of your surplus milk and make a nice sandwich spread," said Miss Bertha Fae Strange, County Home Demonstration Agent, in giving a demonstration of 24-hour cheese to the club reporters at the Methodist Church kitchen, on the afternoon of September 30.

The cheese is made by melting one half cup butter in a heavy iron skillet, adding to this a mixture of 5 cups dry cottage cheese, 2 teaspoons salt, 1 teaspoon soda and one can pimiento. Cook slowly until masa becomes quite stringy. Then if surplus milk is present drain off, slowly add one cup sweet or sour cream to the cooking mixture, stir over slow fire. Pour into mold and let set 24 hours. Variations of this cheese may be made by adding relishes or dill seed in place of pimiento.

Dull Feeling

"I have used Theford's Black-Draught for constipation for a long time, and find it gives relief for this trouble," writes Mrs. Frank Champion, of Wynne, Ark. After many years of use we would not exchange Black-Draught for any medicine."

Schlitz

BREWED to a SPLIT SECOND

WHY? Because SCHLITZ will not permit its beer to ferment in your stomach for even a fraction of a second.

It is incomplete fermentation of beer at the brewery that causes indigestion, flatulency and discomfort otherwise.

We accomplish complete fermentation at the brewery by a secret control of the enzymatic action in the brewing processes.

Enzymatic action in brewing is very similar to the digestive processes in the human stomach.

As a matter of fact, there can be no digestion in the stomach without the aid of enzymes. Without skillfully controlled enzymatic action there can be no good beer.

SCHLITZ has a tradition of 84 years to uphold. It has enjoyed the plaudits of a nation for purity, for quality, for flavor, for wholesomeness, for healthfulness.

But the brewers of SCHLITZ (the direct descendants of the founder) consider the secret control of the enzymes to be the most sensational development in the history of the industry—second only in importance to their introduction and use of SCHLITZ Brown Bottle 22 years ago.

SCHLITZ Beer is a health giving, predigested food. Drink it freely. It is good, and good for you.

TROOP NO. 52

J. A. Lindle, Scoutmaster

Troop No. 52 held their regular meeting on Thursday night last week due to the Cameron-Giddings football game.

"Hank" Matula opened the meeting in the troop theme song. In the patrol meetings various contests were studied, in preparation for the "Scout Jamboree" to be held in Waco on November 11th. These contests were won by the X patrol. This meeting was featured by the presentation of the long looked for President Hoover Award, by committeeman Kunz. Mr. Kunz made a very appropriate speech and urged the troop to go after the similar award that will be given by Presi-

dent Roosevelt this year.

Some of the boys went on an all night hike on Little River last Saturday night.

TROOP NO. 52

J. A. Lindle, Scoutmaster

Troop 52 held their regular meeting Friday night with a very good attendance. After opening the meeting with a scout song, plans were made for the coming "Jamboree" that will be held in Waco on November 11th. At this time a monstrous event will be held in the afternoon, winding up with a court of honor that night. Troop 52 is planning to enter all of these contests, and will begin their workouts at the next meeting. Plans were also made for the Scouts' part in the Golden Jubilee celebration, of St. Monica's Parish on October 11th. Troop 52 will have a section in the parade. After the games another interesting session of the Kangaroos was held. Quite a number of the boys participated.

Mrs. John A. Smith and family are visiting relatives in Hillsboro this week.

STATE WILL PROTECT HER ANTI TRUST LAWS

Austin, Texas, Sept. 23—Legislation to bring the statutes of Texas in line with President Roosevelt's NRA program has occupied the center of the stage this week while hearings have been held before a committee of the whole in the senate. Regarded as the most delicate and intricate legal problem of the session, indications are that in principle and wording the Woodward-Bradley bill will finally be adopted by both houses.

Senator Walter C. Woodward of Coleman, a veteran senate leader and chairman of the committee on Civil Jurisprudence is the author of the bill. By common consent the task was delegated to him in advance of the session because of his committee position and his record as a lawyer of distinguished ability.

The bill pays full loyalty to the belief of Texas that her present anti-trust laws are wise and righteous. It merely suspends from operation the penalties for their violation whenever such violation can be shown to be in consequence of obedience to the federal laws under the National Recovery program. In other words, the bill is true to Texas principles but fully cooperative with the New Deal and the NRA.

Senator Woodward's sound handling of this difficult matter has served to call attention again to his legal ability and he is being daily importuned to become a candidate for governor or for attorney general. Thus far he has not reached a decision. However, it is more than probable that when he has protected the anti-trust principles of the state from injury and at the same time in this bill, as passed, devised a way to enable the state to co-operate with President Roosevelt, he will find a demand for his candidacy for a higher office which he cannot resist.

Bigger Than Grower

This water melon, weighing 183 pounds, came from the vines of this mere 160-pound gentleman, Mr. E. O. Kennedy of Atlanta, Texas. Mr. Kennedy makes a business of growing melons—big melons. This one he will send to President Franklin Roosevelt. It is believed to be the largest grown in the United States this year. Last year's national champion was grown at Hope, Arkansas, and weighed 20 pounds less than the melon pictured above.

Rockdale Gridders Lose To Caldwell In Delayed Rally

CALDWELL—Coach Hubert Dennis' Rockdale high Gridders opened their season with a tough loss this afternoon to Caldwell high.

Caldwell put on a last quarter offensive to win an 8 to 0 decision. A touchdown by Reeves and a touchback accounted for the scores.

The teams were very evenly matched and Rockdale repeatedly threatened, but Coach Darby's boys held when they had to and staved off a Rockdale score.

Both teams showed promising material.

Dam Would Form Lake 1,000 Miles Around

The federal project, a dam across the Red river near Sherman, Texas, now virtually assured, would create a lake having a shoreline 1,000 miles long, according to engineers. The above map shows the approximate shoreline of the lake. The dam would cost \$36,500,000, would inundate 190,000 acres, and do much to control floods along the lower reaches of the river, besides generating 40,000 kilowatts of power.
